THE CABINET RESIGNS

French Government Defeated
In the Chamber of Deputies.

LABOR PROBLEM PROPOSED.

Shall Employees of State Railroads Be Permitted to Attend the Congress of Railroad Men or Organize as a Union—None of the Old Members Will Enter the New Cabinet.

PARIS, May 23.—The government was defeated yesterday in the chamber of deputies on the question as to whether the minister of public works had the authority to allow the employees of the state railroads to attend the congress of railroad men. The premier, M. Casimir-Perier, demanded the adoption of the order of the day, pure and simple. The premier's motion was rejected by a vote of 275 to 235. M. Casimir-Perier thereupon left the Palais Bourbon and the ministers subsequently proceeded to the Elysee palace and handed their resignations to President Carnot.

Previous to the defeat the socialist deputy, M. Jules Guesde, moved that eight hours be constituted a legal day's work for all working people throughout France, and demanded urgency for the motion, amid loud cheers and encouraging cries from the socialists. M. Guesde declared that the time was ripe for the reform urgently demanded by the workmen.

These remarks called forth violent interruptions from the members of the center, who abused the socialists. The latter replied in warm terms, and the disturbance became so great that the president of the chamber was compelled to intervene, and with difficulty succeeded in restoring order.

Other speakers supported the motion and others still opposed it, and minister of public works, M. Jonnard, declared that the question was too grave to be dealt with off-hand, and M. Guesde's motion for urgency was thereupon rejected by a vote of 401 to 94, and the original motion in regard to the establishment of a legal day's work of eight hours, was referred to the commission on labor.

M. Jaures, socialist, asked whether the minister of public works had the authority to allow the employees of the state railroads to attend the congress of railroad men.

M. Jonnard replied that he could not interfere with the decisions of the directors of railroads. Personally, he thought that permission might be granted upon the condition that the service was not impaired by such attendance.

Referring to the state railroad law of 1883, respecting trades unions, M. Jonnard said that it could not be applied to state employees, adding: "If we permitted them to form unions we should authorize them to revolt against the authorities."

The last remark of the minister of public works called forth violent protests from the members of the left and loud cheers from the center party.

M. Jourde then declared that the government's refusal to let the employees of state railroads to take part in the congress was a singular example to private companies.

Millerand, socialist, said that the railroad companies always refused to permit their workmen to attend such congresses and the government directly encouraged them by the attitude which it had assumed today, adding: "If the government refuses to state employees the right to organize, it is in order to encourage the big companies to resist the law."

Millerand moved as the order of the day the order which was accepted by the government in 1933 and at that time adopted, and which concluded with the declaration that the chamber invites the government to compel the big companies, especially the state company, to respect the law of 1885. The minister of public works said some of the railroad companies had accorded the necessary permission to their workmen to attend the congress.

Count De Lanjuinais, Centrist, asked why the law did not apply to the big companies and why, as some of the companies had granted the necessary leave of absence, the state did not do the same.

M. Deramel, rightist, then moved that the chamber invite the government not to make any difference between state and private employees. The president thereupon said: "Two motions have been submitted. Which shall be put first to a vote?" The question was followed by loud cries of "Both motions are the same."

At this stage Premier Casimir-Perier interposed, exclaiming: "The government rejects both motions and asks the chamber to adopt the order of the day, pure and simple." (Sensation in the chamber of deputies and much whispering among the members, for all saw that a crisis had occurred.)

The premier's motion was rejected by a vote of 275 to 235 and M. Casimir-Perier immediately left the chamber, followed by the ministers, amid uproarious cheers from the left, and the continuation of the center party.

Priority being granted in favor of Millerand's motion, it was rejected by 240 to 224 votes, and Millerand said he would support Deramel's motion. The latter explained that the two motions were not identical.

After a few excited speeches, M. Deramel's motion was adopted by a vote of 231 to 223.

Count De Douville-Maillefeu, member of the extreme left, proposed that the house adjourn until May 31, in order to give the cabinet time to reflect and to remodel itself. This proposal caused another uproar in the chamber and was rejected.

The chamber then adjourned until Monday.

On leaving the chamber of deputies the ministers passed before the benches of the extreme left and were greeted with loud cries of "Vive La Republique Sociale," "Vive La Commune."

The minister on reaching the palace of the Elysee acquainted President Carnot with the result of the sitting of the chamber and indicated their intention to resign. They then left the president, and proceeded to the foreign office, where the situation was discussed. Premier Casimir-Perier presided. It was decided to meet again at the Elysee palace and formally tender their resignations to the president. It is considered that the fact that a second vote was taken by the chamber in the absence of the ministers precludes the possibility of a compromise.

RIOT IN CHICAGO.

Weapons of All Kinds Used and Several People Were Badly Injured.

CHICAGO, May 23.—Three hundred men, armed with clubs, coupling pins and revolvers, marched upon the dock of the Western Transit company last night, where a gang of men was at work, who were employed by O'Connor & Company of Buffalo. For some time there was every prospect of a large riot, and weapons of all kinds were freely used.

One man, Joe Williams, one of O'Connor's men, was shot through the ear, and a number of others were badly beaten. The police stopped the row just in time to save somebody from being killed, as the fight was growing to be very ugly when they arrived. The mob was composed of stevedores, who object to O'Connor's men because they unload vessels by the ton, and the union demands that they be paid by the hour. All of the assaults were union men.

ONE KILLED, ONE WOUNDED.

Riot Takes Place Over the Arrest of White Cappers.

LITTLE ROCK, May 23.—News has just reached here of a bloody riot which occurred at Forrest City yesterday afternoon. The trouble was brought about over the arrest of certain prominent citizens of St. Francis county charged with White Capping. A detective by the name of Webster from Memphis was engaged to run the White Caps down. He went to work on the case, and as a consequence some 30 or 40 arrests followed.

Yesterday Webster was attacked in Forrest City by friends of the parties he had arrested. Shooting followed and Webster was instantly killed, and Deputy Sheriff Smith was seriously wounded. Frank Gorman, a merchant of Palestine, is charged with doing the shooting, and has been placed under arrest. The entire town is in a state of great excitement and more trouble may follow at any time.

Not Made Public.

CLEVELAND, May 23.—The convention of the Amalgamated Association of Iron and Steel Workers resumed consideration of the scale question. When Secretary Kilgallon's attention was called to the fact that, what was claimed to be the scale in all its details as adopted by the present convention, had been published in Pittsburgh in the morning, he said: "It is impossible. We have not completed the scale, nor can we do so for a day or two at least. It may be that the Pittsburgh newspapers have got hold of last year's scale and printed it under the impression that it was the new one, but I am perfectly sure that nothing has been given out as the result of the work of the present convention."

Trying the Prize Fighting Case.

CROWN POINT, Ind., May 23.—The court was grinding all day on the first Roly prize fight case against Dominick O'Malley. Only four witnesses have been examined for the state thus far—Sheriff Frederick, Deputy Sheriff Hayes, L. H. Johnson and Maurice Champaign. Their testimony was of the same import, being damaging to the defendant, but it is the general verdict here that the jury will either clear O'Malley or disagree, either of which will virtually end the cases. The first case will likely last three days more.

Taken Back Conditionally.

WEST SUPERIOR, Wis., May 23.—When the Eastern Minnesota passenger train pulled out yesterday for St. Paul Engineer Best, whose case nearly caused a second strike on the Great Northern road, was at the throttle. Mr. Best has been reinstated conditionally. He is under bonds, charged with interfering with the United States mails, and if acquitted he will be retained. Otherwise he will lose his position in addition to the action of the court in his case.

Mills Kept Busy.

WEST SUPERIOR, Wis., May 23.—During the week ending March 1st the mills at the head of the lakes produced 80,429 barrels of flour and in no week since that time have they turned out so much flour as last week. Low freight rates are stimulating production and every mill at the head of the lakes is in operation and all but two are running day and night. Two of the mills will hereafter operate on Sunday.

Dead Man Run Down.

WINCHESTER, O., May 23.—John McNeely, a farmer living near Sardinia, 10 miles west of here, was run over by a Cincinnati, Lebanon and Northern engine at noon yesterday and instantly killed. McNeely was nearly 70 years of age, and being deaf did not hear the approaching engine. He leaves a wife, who resides at Sardinia.

Absconded With the Money.

ELKHART, Ind., May 23.—John Conger, formerly a justice of the peace, has absconded with several hundred dollars belonging to Lusher Brothers.

ADVICE TO THE MINERS

Special Bulletin Sent Out From
National Headquarters.

HOPE HELD OUT TO STRIKERS.

Upon a Coal Famine Depends the Success of a Strike—No Desertions in the Ranks, but Additions Being Made Every Day. The Movement One of Great Magnitude. Other Mining Troubles.

COLUMBUS, O., May 23.—A special bulletin to the striking miners is being sent out from the national headquarters. A short story of the Cleveland convention introduces the address. No more conventions will be called, full power to negotiate with the miners being given to the national officers. The bulletin then proceeds:

"Miners, the eyes of the country are upon you. The great effort now being made by you for living wages is unparalleled in history. The suspension was ordered by an organization without funds. No miners' movement ever covered the same area of territory, or was participated in by men representing as many nationalities or speaking as many languages; and no movement has ever equalled in magnitude and solidarity, or evidenced the power or concerted action, as has the present one."

"From all quarters reports come of a coal famine, and while we regret this because of the hardships to others than our craft, yet upon a coal famine depends our success, hence the sooner and the more general the public experiences distress for the want of fuel, the quicker will they turn their eyes to the mine workers condition in life. There are no desertions in our ranks, but since our last bulletin the miners of Rich Hill, Mo., of all Iowa, and the greatest portion of Kansas, and one-half of those in Arkansas have joined our ranks."

"The boards of trade in all of the leading cities in the country are now petitioning miners and operators to effect a settlement, and on all hands our movement has been indorsed by organized labor, and as never before the sympathy of the press and the public is with us, and all express the hope of our winning, and we are sure to win if you are true to yourselves, your homes and your families, and in defense of the noblest and most worthy cause for which you ever fought."

"This fight must be won by cutting off the coal supply; and we are doing this effectually, hence we again advise that no overt acts be committed; property must not be destroyed nor life jeopardized, because we can win without resorting to such methods, and in doing so reflect more credit upon our cause and our craft. Every day's idleness now counts for more than a week's stop, ordinarily."

TROUBLE FEARED.

Men Go to Work in a Mine but May Be Compelled to Quit.

CENTRALIA, Ills., May 23.—Trouble is expected here at the Big Four mine. About 300 miners, principally negroes, responded to the call of the employees to resume work, and went down into the mines yesterday morning and have been working ever since unmolested. It is understood here that a delegation of strikers from Danquinn, Belleville and other adjacent mines are coming here to force the men out.

About 25 or 30 more men here have expressed a desire to go to work, and it is thought that in all 60 men will go down in the mine before the visiting delegation gets here. The great majority of the miners here favor remaining out until a general compromise is effected, and will join in the effort to close operations here.

ZANESVILLE, O., May 23.—Considerable excitement was caused at Roseville yesterday afternoon by the firing of two shots at Rider Brothers' mine. A committee of 15 united mine workers waited on two miners at work there to induce them to stop work. While the conference was in progress two shots were fired. The shots are said to have been fired by William Rider from his house, about 400 yards distant. They struck the ground 15 feet from where the miners were sitting. The miners here adopted resolutions yesterday to remain out until the strike was settled.

Miners Jubilant.

LEAVENWORTH, Kan., May 23.—Following the pace set by the Leavenworth Coal company, which granted an advance of 12 1-2 cents to its men, the Home Mine company has announced an increase of 10 cents per ton for mine run coal, making the price 90 cents, which brings the wages up the same as the Leavenworth Coal company. The miners are jubilant. At the advanced price about two-thirds of the miners will make from \$3.75 to \$5 a day. There is no probability of a strike now.

Will Co-operate With the Miners.

COLUMBUS, O., May 23.—The first effect of the enlisting of the railroad employees in the miners' cause has come to light. The employees of the Toledo and Ohio Central Railway company have resolved not to haul coal from the mines in West Virginia, that the miners have not been able, so far, to close. President Debs of the American Railway union and President McBride have agreed that their organizations shall co-operate.

Miners' Massmeeting.

POMEROY, O., May 23.—The miners of this district will hold a massmeeting to consider the question of going to work. The majority of operators will pay the price demanded.

Fuel Famine.

YOUNGSTOWN, O., May 23.—For the first time in 12 years the mills of the Mahoning Valley Iron company are idle.

RELIGIOUS QUESTION SETTLED.

The Presbyterian Church Will Hereafter Control Theological Seminaries.

SARATOGA, May 23.—The question of theological seminary control, so far as the general assembly of the Presbyterian church is concerned, is settled. By a vote of almost four to one the report of the majority of the committee that considered the matter was adopted yesterday. The report provides for gaining the power and right to approve the appointments of professors and directors, and asks the directors of the seminaries to declare a trust in favor of the Presbyterian church, which the general assembly may enforce in the civil courts.

At the same time a committee is provided which shall confer and advise with the seminaries and seek to gain their consent to the proposed plan. The report was put through the assembly in spite of urgent requests for delay and in the face of protests from those who desired that the church and the institutions affected might be consulted.

Big Iron Deal.

DULUTH, May 23.—A very unusual iron transaction has just been closed here between the Minnesota Blast Furnace company of Duluth and a leading Pittsburgh steelmaker. The latter has bought from the local iron company about \$30,000 worth of Bessemer pig iron to be shipped at once, and all rail, to Pittsburgh. There will be between three and four full trainloads of iron and the first lot has already gone forward. Satisfaction is expressed at the price. This sale is directly due to the coal strike in the east, but it is the first time that any coke company so far west has been patronized by eastern manufacturers.

Still After the Bandit.

EL RENO, O. T., May 23.—The chase after the escaped bandit continues, but with small chances of success, as he is now in the timber of the Chickasaw nation. He is known as "Choctaw Jim," a well known horse thief. The captured man refuses to give his name or any clue to his identity. He is confined at Fort Reno, where he was taken under military escort. A mob was expected to lynch him, but they were disappointed when he was removed to the fort. The wounded men are in a very serious condition, neither Nelson nor Paris being expected to recover.

In Custody.

NORWALK, O., May 23.—Andrew Meyer and James Burke, two young men, were arrested Monday charged with committing highway robbery on Joseph Schneider, Saturday afternoon, near this city. Meyer has since confessed, and says Burke planned the job. He also says that Burke had planned to rob his (Meyer's) grandfather, Jacob Meyers, who is a well-to-do farmer near this city. A conversation about the latter job was what led to their arrest. They are both in jail.

A Martyr Printer.

LOUISVILLE, May 23.—Lewis Drews, a Cincinnati printer, threw vitriol on Mabel Pearce because she refused to accompany him to St. Louis. Drews wanted to disgrace Mabel's face, but he only succeeded in scorching her raven locks and burning her head badly. Mabel was recently arrested for larceny, and Drews, to save her, said he himself was guilty, and went to jail for 30 days.

Direct Vote For Senators.

WASHINGTON, May 23.—The house committee on election of president and vice president has voted to make a formal report on the bill for Representative Tacker of Virginia, providing for the election of United States senators by a direct vote of the people. The report was agreed upon by a nearly unanimous vote.

An Old Settler Shot.

EVANSTON, Wyo., May 23.—James Widdup, an old settler, was shot and killed here yesterday on Burn Fork, southern Utah county, by William Blodgett in a dispute over water rights. His son, Thomas Widdup, was also shot, but not fatally. Blodgett has escaped and the sheriff has gone after him.

Coxeyle Killed.

HUNTINGTON, W. Va., May 23.—George Mantague fell off a freight train, 30 miles east of this city, and was killed. His home was up in Ohio, near Galion. He joined Coxey's army, and, after reaching Washington, became disgusted and started to beat his way home. His body was horribly mangled.

Divorce Proceedings Dismissed.

CHICAGO, May 23.—Formal notice that the domestic troubles of Andrew Foy, the Cronin suspect, and his wife, the sensational witness at the Coughlin trial, have been compromised was brought into court yesterday. The divorce proceedings instituted by Mrs. Foy were dismissed.

Hotel Men's Benefit Association.

SPRINGFIELD, Ills., May 23.—The secretary of state has licensed the incorporation of the Hotel Men's Mutual Benefit association of the United States and Canada. The association is incorporated to do a beneficial insurance business under the assessment plan, either life or accident.

To Quiet the Navajos.

WASHINGTON, May 23.—The secretary of the interior has forwarded to the war department a request that the troops in New Mexico be directed to arrest Navajo Indians who, a report to the department says, are off their reservation and committing depredations on settlers.

Pendergast's Case Continued.

CHICAGO, May 23.—When the Pendergast hearing was called before Judge Chetlain yesterday afternoon, the attorneys for the defense asked a continuance until June 11. The state made no objections and the stay was entered without discussion.

EIGHT HOURS DEBATE.

Seven Paragraphs of the Tariff Bill Disposed Of.

METAL SCHEDULE CONSIDERED.

A Number of Interesting Clashes Between the Republicans and Democrats—Civil Service Reform Gets an Airing in the House—Proceedings of Both the Senate and House.

WASHINGTON, May 23.—The senate disposed of seven paragraphs of the metal schedule yesterday after eight hours of debate. The debate was marked by quite a number of interesting clashes between the Republicans and Democrats. The sensational feature of the day was caused by the unexpected presentation by Mr. Jones of an amendment substituting the McKinley bill classification and specific rates on round iron in coils, blooms and charcoal iron, somewhat higher than those already proposed.

This amendment was a surprise to some senators on both sides, although evidently anticipated by Mr. Quay and a few other of his colleagues. Mr. Hale tried to use it as a text for taunting the Democratic side, and Mr. Teller read him a very plain lecture on the duty of the Republicans to accept such increase as the Democrats were willing to grant without continually chiding their adversaries with inconsistencies.

When the vote was taken seven Democrats and two Populists refused to support the Jones' substitute, namely, Allen, Berry, Blackburn, Jarvis, Kyle, Mills, Pasco and Potter.

The rates fixed yesterday were as follows: Iron ore, 40 cents per ton; pig iron, scrap iron, etc., \$4 per ton; round iron in coils, eight-tenths cents per pound; slabs, blooms less finished than bars, five-eighths cents per pound; charcoal blooms, \$12 per ton; beams, girders and other structural iron or steel, six-tenths cents per pound; boiler plate, from five-tenths to 25 per cent ad valorem; forging of iron or steel, one-half cent; hoop or band iron or steel (cotton ties), 30 per cent ad valorem.

Just before the tariff bill was taken up Mr. Walsh, the new senator from Georgia, arose to a personal explanation in connection with a newspaper paragraph from St. Paul, stating that the Brotherhood of Locomotive Engineers had Monday adopted resolutions condemning him for introducing a bill making the retarding of the United States mail punishable by imprisonment for 20 years. Mr. Walsh explained that the bill aimed at heavier penalties for train robbers; they had construed it as an attempt to punish trainmen who should "tie up" a train in a strike.

Mr. Walsh said that he had served his apprenticeship at the printers' trade and had never known a day or an hour when he did not sympathize with labor, but he also recognized the fact that capital has rights as well as labor. Labor organizations had a perfect right to direct their members to discontinue work, if by doing so they believed they could accomplish their purposes, but they had no right to interfere with other laborers, who sought to go to work. They had the right to work or not to work; their rights extend no further.

This was a land of liberty; it was also a land of law and order. As long as labor sought a redress of its grievances, and under the forms of law sought to work out its problem in a lawful way, he was with labor to that extent and no further. The bill he had introduced was loosely worded and possibly liable to the construction the locomotive engineers had placed upon it, but it was not intended either directly or indirectly to be subject to such construction. In conclusion Mr. Walsh reintroduced his bill in a modified form so as to leave no doubt of its purpose.

In the House.

WASHINGTON, May 23.—The question of civil service reform was given full sway in the house yesterday, the occasion being the amendment to strike out the paragraph in the legislative appropriation bill providing for the civil service commission. It gave opportunity for some stirring and not a few amusing speeches. The amendment was adopted by a vote of 100 to 71, amid great Democratic applause and Republican cries of "spoils." No other amendments of any importance were made in the bill, the only ones adopted being to correct the totals of a few amendments to which amendments were made Monday.

Mr. Pendleton (Dem., W. Va.) claimed that the civil service commission was established for the purpose of keeping Republicans in office, while the Republicans defended the present administration of the civil service laws. Several Democrats opposed the amendment virtually abolishing the commission, but it was adopted by nearly a strict party vote.

Among the Democrats who voted with the Republicans in favor of civil service reform were: Wilson, Tracy, Hendrix, Dockery, Warner, Springer, Sayers, Crain, Martin, Kilgore, Livingston, DeForrest, Everett. The vote on division was 96 to 61. Cries of no quorum and demands for tellers were made, the vote by tellers being 109 to 71. Mr. Dingley gave notice that he would demand yeas and nays in the house. It being then after 5 o'clock, the committee rose and the house at 5:04 o'clock adjourned.

MUNCIE, Ind., May 23.—The cause of the suicide of 14-year-old Edna Franklin is supposed to have been that she was reproved for reading too much light literature.

Congressional Convention.

CARTHAGE, Mo., May 23.—The Democratic congressional convention of the Seventeenth district nominated C. H. Morgan as candidate for congress.

Partly cloudy weather; probably showers in extreme northern and extreme eastern portion; slightly warmer; variable winds.

AND that night it snowed, Br'er Davis.

The Pittsburg Post states that of the 22,000,000 persons shown by the census to be engaged in earning their living in one line of business or another less than 10 per cent. are employed in the industries that have the benefits of protection. Two millions sum the aggregate of protected labor and 20,000,000 those who would be benefited by a fairer system of taxation. But protection doesn't even protect the protected laborer. His wages are determined, not by tariffs, but by the supply and demand of labor.

WHEN SENATOR HARRIS gave notice last week that he would move, on a certain day, to have the Senate meet at hour earlier to hasten the consideration of the tariff bill, Republicans made light of the matter and intimated that the motion wouldn't go through. They have changed their minds since then. Before the day arrived the Republican Senators discovered that the motion would prevail, and when the time came there was no opposition to it. The Senate is now meeting at 10 a. m. daily and the tariff bill is being pushed.

It's amusing the way some Republican papers and the anti-administration Democrats talk. Less than a week ago some of them asserted the tariff bill was dead, and it was only a question of time, according to these fellows, when it would be buried. Now they are beginning to intimate that the Republican Senators are on the point of withdrawing all opposition to the measure because they say it's a protection bill. The truth about the matter is that they have discovered that the bill will pass when a vote is reached, and their one aim now is to create a false impression in the ranks of the Democrats as to the character of the measure.

The importance of controlling the Congress to be elected this fall should not be lost sight of by the Democratic party, and the bearing the result may have in determining the next Presidency should command the earnest consideration of every Democratic member of both houses of Congress and especially in the Senate, where, unfortunately, legislation progresses slowly, says an exchange. It is not improbable the next President will be elected by the lower House of Congress and the Vice President chosen by the Senate and should the Democrats lose control of the House to be elected this fall the result might lose them the next Presidency. It behooves every Democrat to get into line. This is the year when the party should present a solid front to the enemy.

THE PER CAPITA.

All statements as to the per capita allowance before the State Superintendent has estimated it are mere guess-work, good for nothing except to amuse the guesser. Let us not get to enthusiastic in our hopes, for the taxable property has decreased in value and the children of course have increased in number—you know they always do. The safest plan is to wait for the State Superintendent's estimate about July 1.

GERMANTOWN.

J. H. Walton spent last week in Covington. Aunt Jane Stiles, wife of our landlord, is visiting her son in Maysville.

Mrs. Benj. Tyler and children, of Cynthiana, are visiting her mother, Mrs. Maggie Thompson.

John Mannen will return from Arkansas this week. The climate does not agree with his health.

T. J. Winter and wife, of Maysville, have returned home after spending several days with relatives.

A good deal of tobacco has been set this week. The wheat and rye crops are badly damaged by the snow storm.

Messrs. Thompson, Jolly & Co., having erected their famous merry-go-round on Water street, gave our people a free ride last Friday night, and everybody was there. They will remain this week and will run on Friday and Saturday nights, and expect a large attendance.

MAYSLEICK.

Mrs. W. H. Cord, of Flemingsburg, is visiting friends here.

A great many covered up their plants Sunday evening for fear of a frost or freeze.

The snow Sunday night downed the wheat, and that that is very rank will likely remain down. It was reported by some that the snow Sunday morning was about three inches deep, but soon melted.

There was a big tobacco setting last Monday. Some had fires at each end of the field to warm their fingers by.

About 4 o'clock Monday evening we had a hard rain and some hail which made it full wet to set tobacco plants.

A letter from George Myall and party, who are now in California, states they are all well and having a good time.

The old citizens in this community affirm that they never witnessed such a spell of weather in the month of May. A mistake some place.

A cold wave struck us last Friday night. Saturday was quite cool and fires were comfortable. Sunday morning to the surprise of all the ground was covered with the beautiful snow.

MT. GILEAD.

H. C. Stone was in Maysville Friday on business.

Mrs. Mat. Bradley visited friends in Tollesboro last week.

Mrs. T. L. Tully, of Tollesboro, visited relatives and friends in Gilead this week.

W. C. Halbert, Greenwood Fry and W. B. Pugh: Will some one please inform us what relation "Greenwood" is to George M. Thomas?

F. K. Struve, of the M. E. Church, South, was the pastor at Tollesboro from October, 1883, until October, 1884. His wife was a Miss Pollard, sister to Madeline, and during his year at that place Madeline visited her sister, remaining with her some three weeks. Many of the citizens of Tollesboro remember Miss Pollard as a bright, pretty girl, vivacious and full of life. Either during Rev. Struve's year there, or the year afterwards, W. C. P. Brackinridge spoke there and before leaving mailed a letter to Miss Madeline Pollard, Lexington, Ky.

Mt. Gilead school closed Friday last with very entertaining exercises until noon, at which time all repaired to the beautiful blue grass woods belonging to Miss Kate Morehead, where the contents of a number of well-filled baskets were spread beneath the shade of a giant oak. It is needless to say that every one present did ample justice to this part of the exercises of the day. After dinner was over the young people engaged in playing various games, prominent among which were croquet and loganachy. The following pupils made an average during the term of 90 or more: Alma Savage, Celia Applegar, Clark Bradley, Parry Thomas, Frank Thomas, Charley Thomas, T. B. Farrow and Frank Branel.

Compulsory Education.

A new law that recently went into effect in New York requires that every child between eight and sixteen years of age, in proper physical and mental condition, shall "regularly attend upon instruction at a school in which at least the common school branches of reading, spelling, writing, arithmetic, English grammar and geography are taught, or upon equivalent instruction by a competent teacher elsewhere than at school." The period of such regular attendance is during such time as the public schools are in session between the 1st day of October and the following June. Exception is made of children from fourteen to sixteen who are "regularly and lawfully engaged in any useful employment or service," and those from twelve to fourteen are required to attend only eighty consecutive days in the school year if engaged in useful employment the rest of the time.

History Repeats Itself.

Lexington Leader: "Mr. Tom Hughes, in looking over some old books at H. H. Barnes & Co.'s drug store Monday morning for an old bill, found that Mr. Sam White, a former prescription clerk, had written in one of the day books of the firm under date of May 22, 1883, 'Snow to-day.' History repeats itself almost to the day."

The Old Friend

And the best friend that never fails you is Simmons' Liver Regulator, (the Red Z)—that's what you hear at the mention of this excellent Liver medicine, and people should not be persuaded that anything else will do.

It is the King of Liver Medicines; is better than pills, and takes the place of Quinine and Calomel. It acts directly on the Liver, Kidney and Bowels and gives new life to the whole system. This is the medicine you want. Sold by all Druggists in Liquid, or in Powder to be taken dry or made into a tea.

The Pearl Melville Company.

The Pearl Melville Company appeared at the Washington Opera House last night—the second night of their engagement here—in "The Plunger." They were greeted by a very enthusiastic audience. The company has become popular with our theater-going people and favorable comments can be heard of them throughout the city. This company is one of the best that has appeared at the Washington this season. To-night the sensational drama "The Wells-Fargo Messenger" will be produced.

The National Advertiser, of New York, has the following advice to business men: "The aim of every business man should be to use every opportunity of reaching every possible customer. Newspaper advertising is the instrument most likely to accomplish this end. Other means have been tried and have failed. For a time circulars were considered to be as good a means of accomplishing success as could be devised; but those have been overdone and are now not read. Circulars almost invariably find their way, often with unbroken wrapper, into the waste basket or the fire. The newspaper is by far the better means of reaching the bulk of the people. This result has been the outcome of many experiments in various kinds of advertising."

A Quarter Century Test.

For a quarter of a century Dr. King's New Discovery has been tested, and the millions who have received benefit from its use testify to its wonderful curative powers in all diseases of throat, chest and lungs. A remedy that has stood the test so long and that has given so universal satisfaction is no experiment. Each bottle is positively guaranteed to give relief, or the money will be refunded. It is admitted to be the most reliable for coughs and colds. Trial bottles free at J. James Wood's drug store. Large size 50c. and \$1.

PULLMAN RATES.

A Bill Pending in Congress to Regulate the Charges on All Sleeping Cars.

Representative Fielder, of New Jersey, has introduced a bill in Congress that will be bitterly fought by Pullman, the multi-millionaire palace car manufacturer.

The bill attempts to curb the arrogance of the Pullman company by regulating their present exorbitant rates. A uniform rate of half a cent per mile is to be charged for a lower berth in a sleeper, and one-third of a cent per mile for an upper berth. In addition to the reduction of rates, every sleeping car is to be provided with a safe, in which passengers may place their money or other valuables before retiring to their berths for the night.

Mr. Fielder, it is said, has already received scores of letters from travelers all over the country expressing their hearty approbation of his bill and urging its passage. Many other representatives are hearing from their constituents, calling upon them to support the measure.

The greatest benefit would be derived from the bill by people traveling only comparatively short distances, who now are compelled to pay for a berth whether it is occupied for an hour or a whole night. It, moreover, furnishes a just reduction to those travelers who are compelled to suffer the discomforts of an upper berth.

The passage of Mr. Fielder's bill may, perhaps, cut down some of the present enormous profits of the Pullman Company, but it may not be generally known, says a special, that the company receives, in addition to the extra fee paid by the passengers, the sum of three cents per mile per car from the railroad company which hauls the car. The notion that the Pullman company pays the railroad company for the motive power or for the privilege of running over their line is erroneous. Some roads pay a trifle less than three cents, and others pay more, but the price averages three cents, in addition to which the railroad company repays all damages suffered by the Pullman cars from accidents on the road. Various railroads have attempted to escape from these grinding terms, and some of them, notably the Baltimore and Ohio, have undertaken their own palace car service. All such attempts have proved failures, and the companies have been grateful if the Pullman cars were restored.

An Eye to Business.

A motorman on an electric car line in Spokane is quoted in the Seattle Telegraph as telling this story: "My 'boss'" (referring to the President of the street car company) "is a first-class financier, he is. Why, do you know that every Sunday he advertises for a servant, and Monday twenty or thirty girls ride out to his house near the end of the line to get the place, but find madam can't see them; so they ride back and repeat the journey several times before they are finally told that the old girl has decided to stay awhile. Now, that's financing. Fifteen cents paid out for advertisements, and \$8 or \$9 taken in for car fares to swell the annual dividends of the boss's company."

Cruelty Alleged.

Mrs. Lizzie Fitch Simonson, aged thirty, filed suit at Flemingsburg Monday for divorce from D. G. Simonson, of the firm of Kleinhaus & Simonson, of Louisville. She asks for the restoration of her maiden name, the custody of her three children and for \$50,000 alimony, claiming cruel and inhuman treatment on the part of her husband. Mrs. Simonson is the only daughter of Hon. and Mrs. E. S. Fitch and was married to defendant about nine years ago.

Ed. Rice, living near Richmond, had five hogs killed by lightning last week. They were under a small tree and the Register says a singular feature of it all is that the lightning left no visible marks of its course upon the tree, the barbed wire fence, the ground or the hogs. Mr. Rice is compensated for his loss by the escape he made from death, as ten minutes before he was leaning upon the fence where the hogs were killed.

WERE READY FOR 'EM,

But the Mob Failed to Show Up—Talk of Lynching a Negro at Flemingsburg.

Mention was made Tuesday of the capture of Bud Lowry, colored, at Carlisle Saturday night. Lowry was wanted for killing another negro, Walker Bradley, at Nepton a month or so ago.

The murder was committed without much provocation and Bradley's friends, it appears, have been talking of lynching Lowry.

Lowry was brought to Flemingsburg and yesterday the Sheriff received word that a mob would make an attempt last night to take the murderer from jail and hang him.

The officer didn't intend to be caught napping, so he went to work and summoned a big posse of determined citizens. The posse spent the night watching for the mob, but no mob showed up, and it is well that it didn't. It would have met with a warm reception.

FOURTH TRIAL FOR MURDER.

Edward H. Jones Has Been Granted a New Trial by the Supreme Court.

COLUMBUS, O., May 23.—The supreme court has decided that Edward H. Jones, the Clermont county murderer who killed his son and who is now in the annex under sentence of death, must have another trial. This will be the fourth. At all the preceding trials he has been found guilty of murder in the first degree, and as to the grade of crime it would therefore seem that there is no room for doubt. The retrials have all been ordered on purely technical grounds.

The decision was unanimous, and will be reported fully in the syllabus which will appear later in the week. Until then it can not be definitely known which of the several questions raised by Jones' attorneys is taken by the court as the basis of the decision. About the court it is rumored, however, that they regarded the claim that it was improper for the prosecuting attorney on the scene of the murder to enact the story of the murder, he impersonating the murderer and the point of the defense that Jones did not aim the gun at his son and fire, but that it was probably discharged accidentally, as he was raising it to his shoulder, as the most serious questions raised in the case.

PAYING UP CLAIMS.

Doings of the Switchmen's Mutual Aid Association.

EVANSVILLE, Ind., May 23.—The grand lodge of the Switchmen's Mutual Aid association spent the day in paying up claims for disability amounting to \$75,000. The constitution as revised was finally adopted, making it obligatory on members to take out insurance of one of two classes, first class being for \$1,000 and second class for \$500.

The grand master was empowered to appoint four district organizers, who will be a part of the lodge official roster. They will be paid only for what work they do and are subject to the order of the grand master.

Much interest is manifested in the forthcoming report of the finance committee having charge of the books of the missing treasurer, Simsrott.

FLOOD SUBSIDING.

Williamsport Suffered Most by the Recent Overflow.

PHILADELPHIA, May 23.—Advices from all parts of the flooded district are to the effect that the worst is over. The damage done is as yet incalculable, and it will be weeks perhaps before railroad traffic and business generally resume their conditions, but the waters are receding rapidly and there is no more apparent danger.

Williamsport, which has suffered most, is itself again, and business will be promptly resumed. The pecuniary loss there is as great as in 1880, but another day has brought no news of loss of life.

In this city the Schuylkill has fallen rapidly, the rain has ceased to fall, and the flood is looked upon as a thing of the past.

Guilty of Forgery.

KENTON, O., May 23.—William Dawson, 19, forged a \$20-check on his uncle, John Conley, who keeps a livery stable, cashed the check at the First National bank, stole a suit of clothes from Rosenthal's store in broad daylight and escaped. The police chased him four miles into the woods, where they lost the trace. He lives in Dayton, where he is highly connected. He came here recently to visit his uncle.

Riot at a Circus.

HUNTINGTON, W. Va., May 23.—A riot occurred at Wayne C. H., yesterday, 20 miles south of this city, where several thousand people had gathered to witness Robinson's circus. J. W. Watts and D. Danmon, who were enemies, began fighting, and in a minute 20 men were taking an active part. The riot lasted for nearly half an hour, in which several men were shot seriously.

For the Farmer.

Colorado has 3,000,000 acres under artificial irrigation. The farm products exceed \$12,000,000 a year. There are 1,500,000 cattle and 2,000,000 sheep.

The early wheat was in bloom when the late snow fell, and the opinion of some farmers is that it has been badly damaged. The rankest of it has been flat on the ground since Saturday night, and if it remains down it will never mature—or at least make a very poor crop.

A correspondent writes the Breeders' Gazette as follows: "I have fed a great deal of wheat to hogs and find the same trouble noted by correspondents in the Gazette. When soaked whole it passed undigested to such an extent that I concluded there was no profit in feeding that way. I have had better results when fed dry. It has paid me the best, however, to grind and soak, as with hogs at 4 1/2 cent per pound and wheat 40 cents per bushel my wheat brought me 68 1/2 cents per bushel fed in that way. Weighed hogs and wheat and did no guessing."

Four Big Successes.

Having the needed merit to more than make good all the advertising claimed for them, the following four remedies have reached a phenomenal sale. Dr. King's New Discovery, for consumption, coughs and colds, each to be guaranteed—Electric Bitters, the great remedy for liver, stomach, and kidneys. Backlen's Arnica Salve, the best in the world, and Dr. King's New Life Pills, which are a perfect pill. All these remedies are guaranteed to do just what is claimed for them and the dealer whose name is attached herewith will be glad to tell you more. Sold at J. Jas. Wood's drug store.

Wants to Recover His Loan.

TOPEKA, May 23.—Suit was filed yesterday afternoon against the Topeka waterworks by W. K. Strong, ex-president of the Santa Fe road, to recover \$125,000 loaned that company in 1892.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

It Removes Dandruff,
Cleans the Scalp,

BELLIGERENT MINERS.

The Sheriff Called on and the Militia May Be Ordered Out.

AKRON, O., May 23.—Serious trouble is apprehended among the coal miners of Tuscarawas county, where several mines are being worked. Yesterday the men were driven out of one mine by strikers. The same fate is threatened to the other workers.

The sheriff of Tuscarawas county telegraphed Major F. C. Bryan of the Eighth regiment for aid, and he immediately left for the seat of trouble, asking Adjutant General Howe to meet him and ordering his companies to meet themselves in readiness. The strikers are belligerent and determined that work shall not be continued.

Not Allowed to Enter the City.

SENECA, Kan., May 23.—General Bennett's division of the commonwealth army has arrived here, but was not allowed to enter the city. Bennett said he would not let his men walk as they had not walked over 60 miles in their entire trip from Denver.

Pythian Home Dedicated.

SPRINGFIELD, O., May 23.—The annual meeting of the Ohio grand lodge of Knights of Pythias is in session here and will continue for three days. Yesterday afternoon there was a grand parade of the uniformed rank to the grounds of the new Pythian home, which was dedicated with appropriate ceremonies.
